THE STOCK

which goes into a shoe is most important. Leather being the one ideal material, the only reason for "substitutes" must be cheapness. Cheapness never adds to quality, nor does the counterfeit equal the genuine.

For that reason the solid leather "Star Brand" shoes is the proper shoe. It is real—exactly what it purports to be—is just what it is sold for, and worth every cent it costs. It stands for that trinity of shoe goodness—style, comfort and durability.
